

SG30 PIPE CUTTING MACHINE

Quality Pipe Cutting Machine

The SG-30 PIPE CUTTER is a hand crank pipe cutting machine. This manually operated portable oxy fuel pipe cutting machine uses a chain and gear drive system. The drive chain is comprised of durable, interlocking links that can easily be added or removed for quick change of pipe diameters. A graduated bevel collar ensures accurate bevel setting. The control valves for fuel, preheat oxygen and cutting oxygen are positioned away from heat yet conveniently placed for easy operator use. Interlocking Chain Links allow addition or removal of links as needed for various size pipes. Standard chain configuration is 2.4m (82pcs chain links) with longer chain linkage optional. Lightweight - At only 9kg this unit is easy to carry, operate and maintain. Worm gear drive and low gear ratio ensures extremely smooth travel. Optional Snap Valve - One-touch on/off gas valve.

XG-SG30

Technical Data

Chain type	Single link chain (Same as Koike type)
Quick clutch	None
Effective pipe diameter	114~600mm by standard chain(2.4m) over 600mm by extra chain addition
Cutting thickness	up to 50mm
Cutting shape	Square and bevel (up to 45°)
Drive method	Manual
Size	250*250*400
Weight	10.5kg

XG-SG30 Machine Package Includes:

- SG30 Pipe Cutting Machine
- 1 Cutting Torch with Rack Mounts
- Hose Set - 500mm
- 3 x 3 Seat Cutting Tips
- Link Chain (2.4m)
- Tool Kit
- 12 Month Warranty
